## duo-glide<sup>®</sup> '63

*double up...take a trip...ride with pride*

Hit the highway . . . take in the races . . . ride with pride on a Duo-Glide. For 1963 there are more changes than ever — from saddlebags\* to directional signals\* — including new protective chain guard; chrome oil tank;\* new chain oiler; external OHV oil lines; bigger, huskier rear brake

\*Optional accessories

with 40% more brake contact; and new streamline-style starter pedal. Add to these features the many deluxe Duo-Glide extras and you're looking at the *luxury liner* of the world's roadways. Ride out on a 1963 Harley-Davidson Duo-Glide today and enjoy motorcycling at its best!

#### NEW REAR BRAKE

Large 1 1/2" wide rear brake gives the Duo-Glide 40% more brake contact at rear wheel. Offers fade and wear resistance, less pedal pressure.

#### 3-POINT SUSPENSION

Hydra-Glide® front fork, spring-loaded seat post and swing-arm rear suspension give you a miracle ride . . . iron out the bumps.

#### NEW CHAIN GUARD

For 1963 the Duo-Glide features a protective chain guard that prevents side and rear oil throw-off. A new type chain oiler extends chain life.

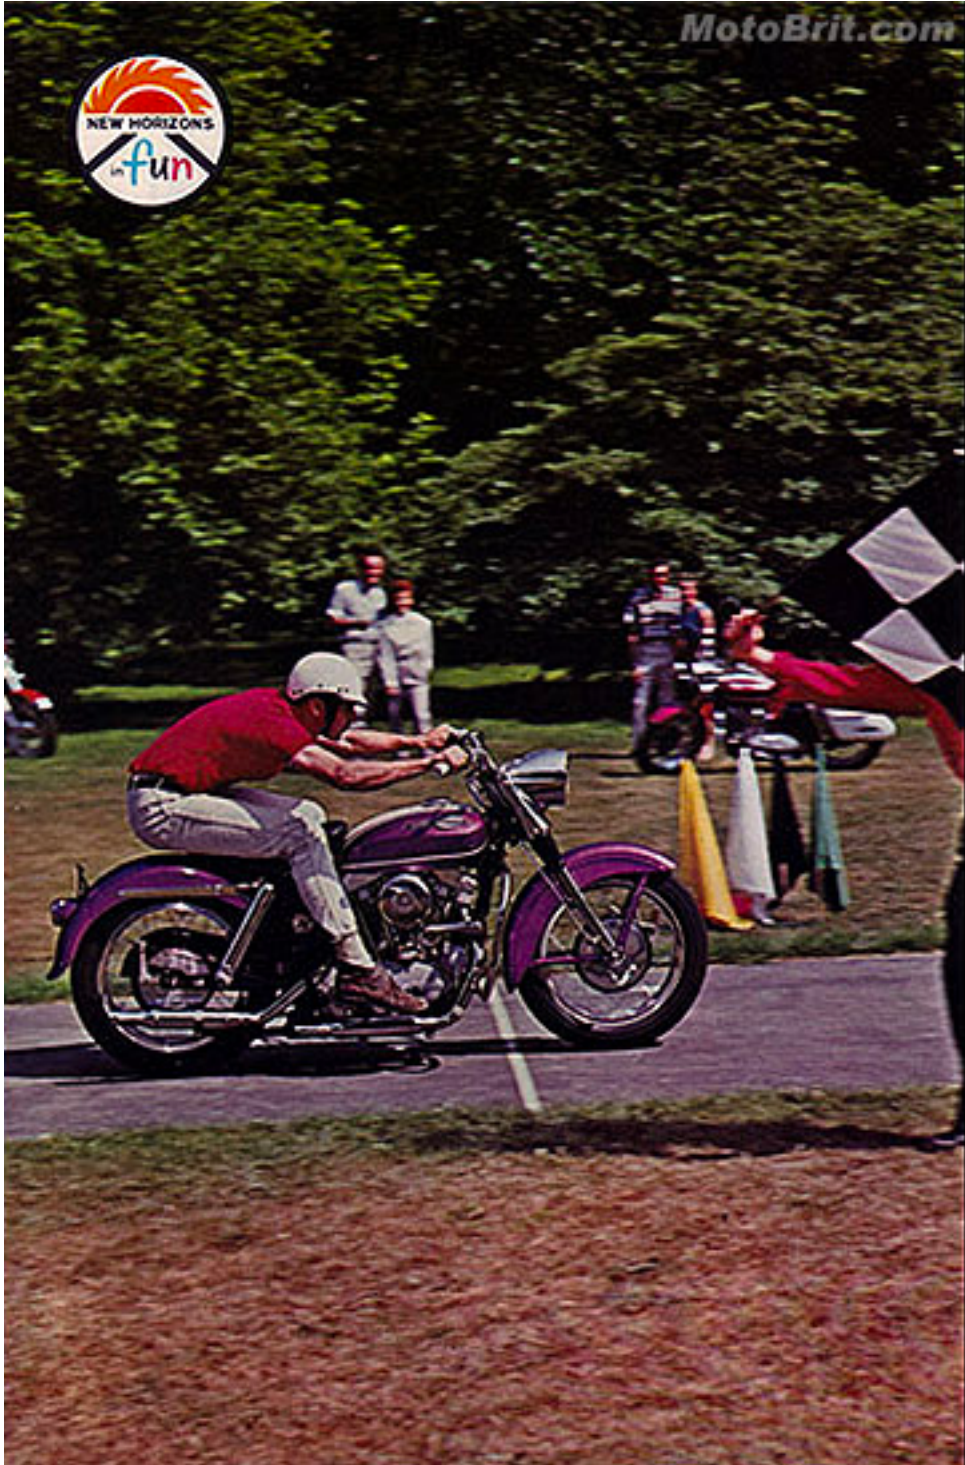

#### FAMOUS OHV ENGINE

Hemispherical combustion chambers, new long-life tappet rollers, aluminum alloy pistons—all Duo-Glide extras to give you performance plus!

**duo-glide<sup>®</sup> ...KING OF THE HIGHWAY!**

## sportster h<sup>63</sup>

*power plus for your every riding want*

Ready for you—55 cubic inches of responsive power for every riding purpose. Ride a Sportster H on the road...take along a gal...enter the drags, or ride anywhere! It's a true champion with championship power, built-in all-around performance, built-in comfort and nimble

maneuverability. New two-tone styling, new molded hi-style starter pedal and super-smooth third gear all add up to more zest for this sporting Sportster. Now is the time to get in on real motorcycle action aboard a Harley-Davidson Sportster H for 1963.

**NEW THIRD GEAR**  
A smooth in-town gear that takes Sportsters through slow traffic **effortlessly** — makes shifting between 3rd and 4th gears smoother and **faster**.

**SMOOTH GOING**  
Hydraulic suspension, front and rear, provides **smooth going** for all Sportsters — gives you competition-bred handling qualities at all times.

**DEPENDABLE BRAKES**  
Husky, 8-inch diameter brakes give the Sportsters **stopping power**. Ideal for the highway...tops for competitive riding.

**"HOT" POWER**  
Here is V-power at its finest! Both of the Sportster models offer the kind of horsepower that will make you a **winner** in all types of riding.

## sportster ch '63

*sporting wheels for rugged riding*

Heads up . . . here comes the '63 Sportster CH! It makes its own trails through mud, sand and water! A twist of the throttle puts you in the winner's seat! New features for '63 include a new hotter magneto with key lock and 'tach' drive

gear — plus new starter pedal, new smoother third gear, durable rubber-mounted headlight, and handlebar-mounted dimmer switch. Head out for new *Fun Horizons* on a '63 Harley-Davidson Sportster CH. It's on display now.

#### STURDY CLUTCH

The all-around Sportsters are built to take it! Seven-plate clutch gives trouble-free, smooth riding performance you need, on or off the road.

#### NEW MAGNETO

An electrically improved Magneto with higher output coil is featured on the CH. The Magneto also has new tachometer drive provision as well as a key lock.

#### TAPPETS — VALVES

A Sportster power feature — lightweight tappets with less inertia; jumbo intake valves for better filling of the combustion chamber. Another "GO" feature.

#### PISTONS — HEADS

All Sportsters give peak performance through highdome, 9 to 1 compression ratio pistons — and ported heads with enlarged intake port openings.

**sportster ch** . . . winning wheels for winning riders

## sprint '63

*real zip... a streamlined 250cc lightning lightweight*

Here's the sensational Harley-Davidson Sprint with more snap . . . more sizzle than any other 250cc lightweight going. The '63 Sprint sports a flashy new tank; hi-level rubber-mounted bars; softer saddle; big sturdy control cables; ball-end control levers; 60 watt generator; large

capacity battery; heavy-duty frame; and tach drive provision. Feature for feature, the '63 Harley-Davidson Sprint gives you championship value with championship class! See it . . . ride it . . . you'll love it! Stop in at your Harley-Davidson dealer's today!

**WINNING POWER**  
A 15 cubic inch, 250 c.c. package of overhead power featuring helical primary drive and downdraft carburetion. Engine has tach drive gear.

**STYLIZED TANK**  
New and beautiful — practical, too! The new Sprint gas tank is specially styled to match overall Sprint lines. Gasoline capacity, 4 gallons.

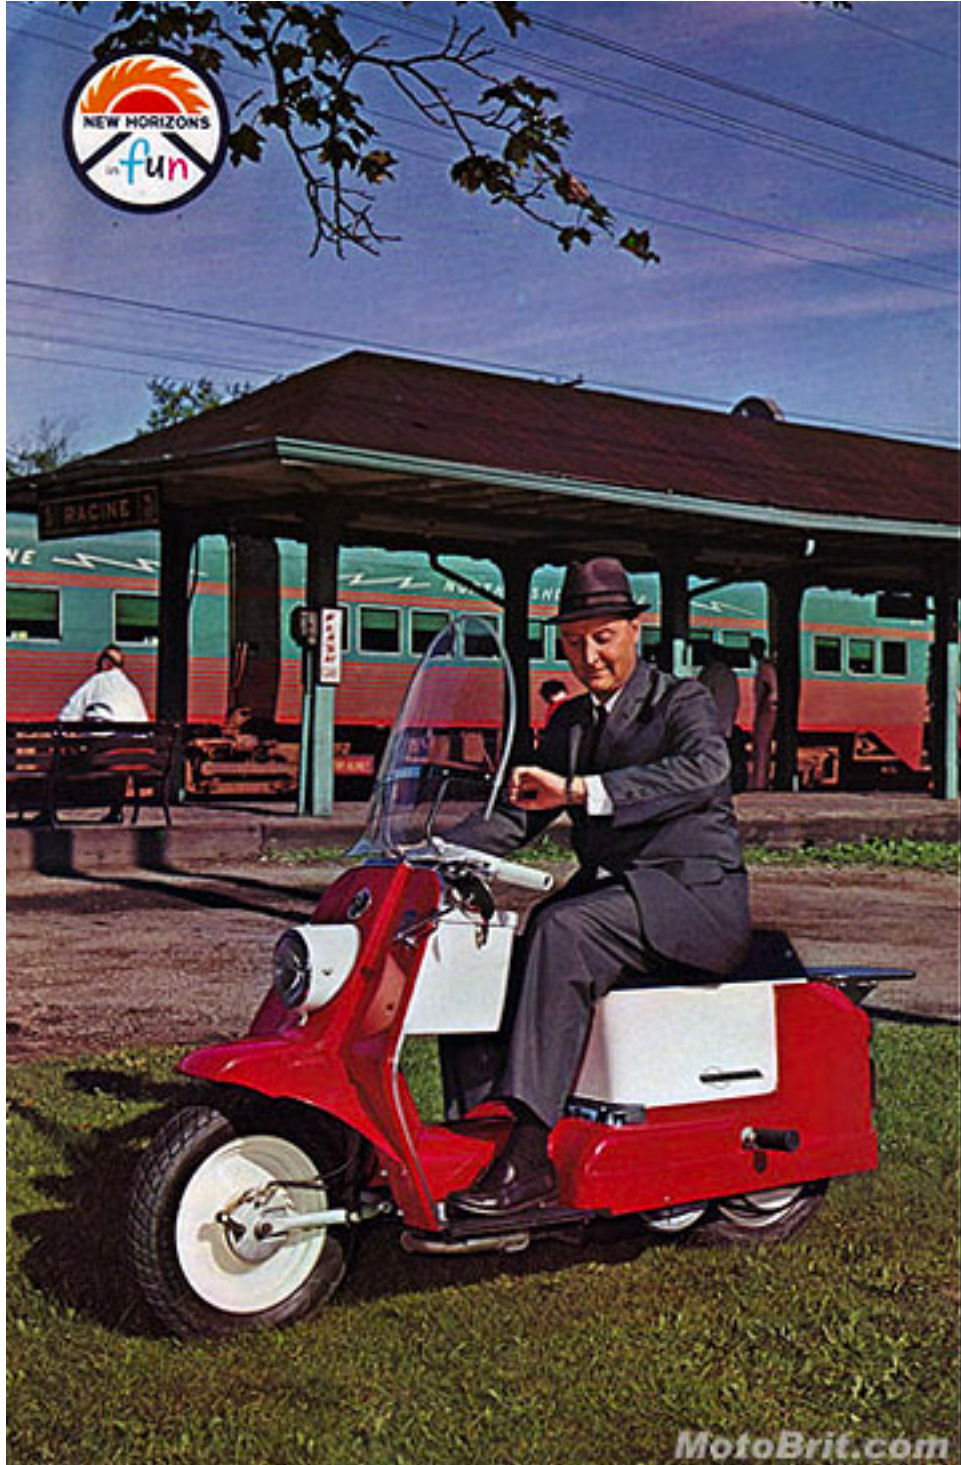

**COMFORT SEAT**  
Both Sprints are decked out with new, comfortable seats. Both are racy in style with plenty of foam-rubber padding for riding ease.

**HANDLEBARS**  
New, hi-level bars are rubber mounted with ball-end levers. The '63 Sprint also has hevi-duty control cables and a short turn radius.

**sprint** RACE-BRED with LION-HEARTED POWER!

## topper h<sup>63</sup>

### motor scooter

*modern wheels for modern transportation*

Catching the commuter special...getting to school on time . . . or just out for real, downright fun — you can't beat the Topper H. These are fun 'wheels' the whole family can enjoy with super gas-mileage economy to boot! The Topper H is easy to ride, too, with "Scootaway"

automatic transmission — just turn the throttle and away you go. Large wheels, big front and rear brakes and dependable lighting system make for safe going on any road surface — night or day! Be modern . . . go modern . . . ride a '63 Harley-Davidson Topper H.

AVAILABLE AS OPTIONAL EXTRA EQUIPMENT FOR TOPPERS—SIDECAR OR UTILITY BOX.

#### NEW SEAT

Styled from new, jet black waterproof Hypalon plastic. Material is easy to keep clean with soap and water. A passenger Seat Strap is optional.

#### ENGINE — DRIVE

Topper's Scootaway automatic drive eliminates shifting—gives you fast smooth acceleration. Engine delivers 9½ horsepower for your pleasure.

#### WHEELS — RIDE

Large diameter wheels take you over holes and bumps safely. Smooth suspension, front and rear, gives you a velvet, gliding ride.

#### SAFE BRAKES

The Topper is a fast stopper! Not one brake, but two—front and rear! Husky brakes are 5 inches in diameter for safe, sure stops, every time!

**topper h** GREATEST FUN VALUE ON WHEELS!
